General Information

This catalogue cover all service parts for SANTANA SJ413.

SJ413 have various specification with the combination of grade, intended market etc., and all of those related parts are compiles in this catalogue.

For easier and exact reference of parts required for a certain vehicle, various marks are puts in the remarks column of this catalogue.

Exact parts required can be located by refering to this remarks, the engine serial number of the vehicle and the information given in the model identification plate, which is provided for each vehicle in the location as illustrated bellow.

1.- Location of the model Identification Plate.

2.- Information of the model Identification Plate.

This technical diagram illustrates the assembly of a vehicle axle. The main components are shown in an exploded view, with numbered callouts (1-25) identifying each part. The assembly includes a central axle shaft (8) with multiple splines, a differential housing (17) with a wheel (18) mounted on it, and various mounting brackets (1, 5, 7, 9, 10) and fasteners (2, 3, 4, 6, 11, 12, 13, 14, 15, 16, 19, 20, 21, 22, 23, 24, 25). A small arrow labeled 'FWD' indicates the front of the vehicle. The diagram is a black and white line drawing.
